Farm Signs ~ Showboards ~ Vehicle Panels ~ House Signs

As each job is carefully designed to your requirements a few minutes taken to consider the following points could be beneficial before making any decisions.

- All signs are made in aluminium composite using high quality paints and varnish creating a durable weatherproof finish
- Single or double sided
- Double sided signs are two single sided signs.
- We supply free of charge the hanging bracket (made from 20mm x 20mm box metal) to which the signs are secured by self tapping screws concealed in plastic covers
- Portraits are hand painted from customer's photos – perhaps a personal favourite, a past show champion, a foundation animal or a specific specimen of the breed. The background behind the animal can be your choice. e.g. - your farm a local landmark or hills and sky.
- Background and lettering colours.
- Your satisfaction is our concern.
- A photo of the finished job can be e-mailed for your perusal.
- If you require fixing holes drilled, please ask otherwise it will be left to your discretion.
- **Due to increased expenditure for raw materials, plus a small but increasing number of reluctant payers, we find it necessary for payment before despatch.**
- Production times vary according to workload. Normally between 6-8 weeks.
- If you would like to see more examples, show boxes, show boards, or featuring one particular breed, please ask.
